## LEOPARD 46 POWERCAT

LEOPARD 46 PC delivers pure comfort and stunning performance. She is powered by twin Yanmar 320hp or 370hp shaft drive diesels which give her a maximum speed of 24kts, with a cruising speed of 17.5kts. The hulls have narrow entry at the bows and big volume stepped hulls above the waterline resulting in incredible space down below as well as smooth riding and unmatched range. The power units are installed in dedicated engine rooms accessed via the cockpit sole. These engine rooms are located aft of the accommodation areas, so that noise and vibrations underway are drastically reduced.

The outside aft cockpit areas unite on one level through to her interior creating a feeling of space and airiness. The saloon opens directly forwards onto a sunny lounging area, complete with adjustable recliners. The aft cockpit is a simple, well-proportioned U-shaped settee with a large dining table sized to seat eight comfortably.

The flybridge adds a whole alternative seating area and can be used while underway or as an elevated position to enjoy sundowners or even a meal at anchor.

The main helm station is situated in the flybridge area, and provides a large comfortable seating position, with a commanding all-round view.

The flybridge space is protected by a composite-moulded hardtop, which has a newly incorporated "spoiler" along its aft end to reduce excessive turbulence from entering the aft flybridge sundeck when underway.

Already proving to be the leader in her class, the Leopard 46 Powercat has developed a passionate following among multihull power enthusiasts across the globe.

## LEOPARD 45 SAILING CATAMARAN

THE LEOPARD 45 SAILING CATAMARAN is a proven winner in the mid-size catamaran genre. She offers great value and delivers exhilarating performance, stylish good looks, and proven reliability.

With naval architecture by Simonis & Voogd Yacht Design, and with exterior and interior design by the world-class design team at Robertson and Caine, the Leopard 45 Sailing Catamaran not only builds on the best features of the current Leopard range, but most notably offers new exterior styling and enhanced interior accommodation.

The Leopard 45 features a forward cockpit and upper lounge with sunbed and a table. Access to this lounge is provided by floating stairs leading up from the aft cockpit, without disrupting the helm station. The helm station remains well protected, and integrated into the cockpit and the rest of the boat.

Available in a three or four cabin layout, the Leopard 45 offers the perfect entertainment package with increased aft area with new layout, ergonomically designed open plan saloon and galley, larger forward cockpit, and more onboard area.

She's sleek and nimble, yet comfortable. She incorporates a heritage of Leopards spanning thirty years of production expertise.

In summary, the Leopard 45 Sailing Catamaran delivers uncompromised, exceptional build quality throughout, new, sleek styling, impressive sailing performance and comfort across all sea states. And her unique features and innovative technologies set her above the pack in mid-range sailing catamaran offerings.

## LEOPARD 53 POWERCAT

SUCCESSING THE MOST POPULAR powercat of all time (the Leopard 51PC), this Leopard 53 Powercat ushers in the fourth generation with a yacht that features all the attributes that made her predecessor successful, while reimagining what a Powercat should be. With the space, stability, and efficiency expected of a catamaran combined with the comfort and luxury of a motor yacht, she is crafted with style without compromising on performance.

The Leopard 53 Powercat offers a modern interior with the comforts of home as well as plenty of outdoor entertaining space. She is easy to maintain and operate by a couple and is up to 50% more fuel efficient than her monohull motor yacht counterparts. Powered by twin Yanmar 370hp shaft drive diesels, she delivers a top speed of 22kts, and cruises comfortably at 17.5kts.

The interior's atmosphere will entice, with cool tones and modern finishes. Offered in a three or four cabin layout, with the option for separate crew cabins. The three-cabin owner's version provided an at-home feel with a large, walk around bed, a walk-in closet and a double vanity.

The saloon offers large, panoramic windows, an L-shaped lounge to port and a 2-person settee to starboard with an option to add an interior navigation station. The flow is seamless with access to foredeck through the forward saloon door.

The galley is outfitted with a domestic-sized refrigerator/freezer, Staron® worktop surfaces, four-burner stove, microwave oven, sink and faucet, and ample amounts of storage.

The flybridge provides a well-thought-out helm station with great visibility. Spacious seating and a large table allow for a great place to entertain family and friends and enjoy a meal with spectacular views.

The Leopard 53 Powercat offers an ultra-modern interior with the comforts of home as well as plenty of outdoor entertaining space. She is easy to maintain and operate by a couple and is up to 50% more fuel efficient than her monohull motor yacht counterparts.

The interior's atmosphere will entice, with cool tones and modern finishes. Offered in a three or four cabin layout, with the option for separate crew cabins. The three-cabin owner's version provided an at-home feel with a large, walk around bed, a walk-in closet and a double vanity.

It is easy to see why the Leopard 53 Powercat is already proving a worthy successor.

## LEOPARD 50 SAILING CATAMARAN

THE LEOPARD 50 offers the ideal layout for owners requiring increased indoor and outdoor living space and has the Leopard's signature features of the forward cockpit accessed directly from the saloon, and the flybridge lounge area. The helm station is well protected with a dedicated hard top, and with direct access and visibility into the aft cockpit. Another important distinction compared to similar sailboat flybridge configurations is that while under sail, guests can move about the flybridge with ample headroom and never worry about interference from the boom. This flybridge lounge location is cleverly designed so that captain and helm station crew are always in proximity with their guests. This unique configuration is an important feature found on all Leopard Sailing Catamaran models.

The entire exterior styling of the Leopard 50 has also been revamped to give the hull a more sophisticated look, and outstanding performance. In addition to the exterior options, the fresh modern interior offers multiple layout configurations with three, four or five cabins, a utility room for liveaboard, and an extensive options list.
